*Beauty and the Bull Rider* May 07 2021 When Beauty Wants A Baby  
Championship bull breeder and former Texas beauty queen Delaney  
McCall was having a heck of a time finding a daddy for the baby she  
craved. A failed marriage left her with no desire for another husband, but  
finding the right stud to satisfy her needs presents a bigger problem that  
she could have imagined. And The Bullrider Wants Beauty After hanging

up his spurs, bull rider Zac McDaniel wants nothing more than to fulfill Delaney's dream of having a family. After all, his best friend's ex has been his fantasy for years. Zac, however, has no desire to be seen as just a means to an end. And when Zac insists on doing things the "old fashioned" way, their passion explodes like a bull out of the chute... Some Bucking Is Bound To Happen While insisting it's all just a passing fancy, the more Delaney sees the softer side of the rough and tumble cowboy, the harder it is to keep her emotions corraled. Zac, meanwhile, is more determined than ever to prove he's what she really needs, and will do whatever it takes to tear down the mile high fence around her heart... Praise for Victoria Vane "Erotic and sexy." --Library Journal on the Devil DeVere series "For erotic passion and one-liners, the first book in Vane's new series will satisfy...Vane's latest gets a big yee-haw." --RT Book Reviews on Slow Hand

*New Directions in Strategic Thinking 2.0* Apr 06 2021 The Australian National University's Strategic & Defence Studies Centre (SDSC) is Australia's premier university-based strategic studies think tank. Fifty years after the Centre was founded in 1966, SDSC celebrated its continued research, publications, teaching and government advisory role with a two-day conference entitled 'New Directions in Strategic Thinking 2.0'. The event saw the podium graced by many of the world's premier thinkers in the strategic studies field. An evening between those tours to the lectern brought together academics, practitioners and other honoured guests at a commemorative dinner held beneath the widespread wings of the 'G for George' bomber in the Australian War Memorial—an event that included SDSC's own Professor Desmond Ball AO making his last public appearance. Since SDSC's 25th anniversary, the world has seen the collapse of the Soviet Union and the end of the Cold War. Bipolarity gave way to the emergence of the United States as the world's sole superpower, a status many now see as under threat. Both the nature of the threats and identity of individual competitors has changed in the interim quarter-century. Non-state actors are presenting rising challenges to national governments. Meanwhile, a diminished Russia and far more wealthy China seek to reassert themselves. Never before has the call for reasoned innovative security studies thinking been more pronounced. Rarely has a group so able to offer that thought come together as was the case in July 2016. This book encapsulates the essence of this cutting-edge thinking and is a must read for those concerned with emerging strategic challenges facing Australia and its security partners.

*Legal Imperialism* Apr 25 2020 Legal Imperialism examines the important role of nineteenth-century Western extraterritorial courts in non-Western states. These courts, created as a separate legal system for Western expatriates living in Asian and Islamic countries, developed from the British imperial model, which was founded on ideals of legal positivism. Based on a cross-cultural comparison of the emergence, function, and abolition of these court systems in Japan, the Ottoman Empire, and China, Turan Kayaoglu elaborates a theory of extraterritoriality, comparing the nineteenth-century British example with the post-World War II American legal imperialism. He also provides an explanation for the end of imperial extraterritoriality, arguing that the Western decision to abolish their separate legal systems stemmed from changes in non-Western territories, including Meiji legal reforms, Republican Turkey's legal transformation under Atatürk, and the Guomindang's legal reorganization in China. Ultimately, his research provides an innovative basis for understanding the assertion of legal authority by Western powers on foreign soil and the influence of such assertion on ideas about sovereignty.

What should be the gateway to the stars is still a building site where volunteer workers survive on meager rations. New arrivals Julian and Mildred soon find their disappointment replaced with awe, however, as they meet some of the city's strangest residents—and when a theft occurs, they step up to help Bull find the perpetrators. Meanwhile, Crest learns that his true reason for traveling to Earth is not as secret as he thought...
