"Like a long periodic sentence, this book rumbles along, gathers steam, shifts gears, and packs a wallop." —Roy Blount Jr. "Language lovers will flock to this homage to great writing." —Booklist Outspoken New York Times columnist Stanley Fish offers an entertaining, erudite analysis of language and rhetoric in this delightful celebration of the written word. Drawing on a wide range of great writers, from Philip Roth to Antonin Scalia to Jane Austen and beyond, Fish's *How to Write a Sentence* is much more than a writing manual—it is a penetrating exploration into the art and craft of sentences. Excerpt from *Practical Studies in Sentence Analysis*

"*Practical Studies in Sentence Analysis*" is a revision and an enlargement of the author's former work, entitled "*A Study of the English Sentence*," which was published in 1895. In this work was printed for the first time a new method of written (visual) sentence analysis, designed as a substitute for the defective "diagram system" then in vogue. Since that time the writer has taught his scheme of combined

oral and written analysis of the English sentence to many classes of pupils and teachers, who have voluntarily given personal testimony to its practical value. The memory of these words of commendation has furnished, for the most part, the author's main motive for organizing in a textbook the results of his past experiences in studying and teaching the functional elements of the English sentence. In no sense is this work to be regarded as a substitute for a textbook on English Grammar, but rather as a supplement to almost any grammar that would serve as a reference book for rules, principles, and definitions. It must be acknowledged that much of the teaching of English grammar has had to do with the recognition and classification of the Parts of Speech, and that no sufficient attention has been given to the classification of unit elements according to their special functions. The importance of sentence analysis has been noted by the New York Board of Regents in an "English Syllabus" in the following terms: "To help the pupil to develop the 'sentence sense' and to grasp the thought of difficult sentences, much of the time given to the study of grammar should be spent in the analysis of sentences just within the limit of his mental ability, such analysis consisting of rapid drill in syntax of words, phrases, and clauses." Writing with Confidence incorporates high-interest themes in its exercises and discourse while fully developing the writing process and fundamental writing skills. The text's five units include chapters on the writing process, paragraph organization and development, the shape of the essay, all the rhetorical modes, and all the sentence skills. The writing

chapters are fully process-oriented, showing the development of a paragraph in six steps, from planning and outlining through drafting, revising, editing, and proofreading. For all students, but especially for visual learners, the popular "Blueprints for Writing" in the rhetorical chapters offer models and concrete guidance, as do "Templates," which, new this edition, help students structure sentences and transitions. This focus on writing is balanced with equal attention to sentence skills, not only for native speakers of English who need help, but for non-English-dominant speakers as well. This workbook, *Wacky Sentences Handwriting Workbook*, is designed to inspire interest in cursive handwriting. This workbook focuses on writing complete sentences in cursive. Kids enjoy writing wacky sentences like, "Two rabbits slept on a fox's head," and, "Six elephants jumped over a giraffe." Exercises like these help to make learning fun, even at home. Four sections of this workbook help students develop their cursive writing skills at a variety of levels: Part 1 is the basic level. Students practice handwriting motions by tracing dotted sentences. Part 2 advances to help students begin to write on their own. In this section, students first trace a dotted sentence and then copy the sentence onto a new line. The three traditional horizontal lines are included as a guide - solid top and bottom lines plus a dashed middle line help students master the relative heights of the letters, and to write across the page in straight lines. Part 3 gives solid sentences instead of dotted sentences. At this stage, students practice their handwriting without first tracing the letters. Part 4 is the most advanced stage. The given sentences are now printed and students must now rewrite them in cursive. Beginners may wish to start out with a more basic book that offers practice with individual letters before advancing to complete sentences, such as the *Letters, Words, and Silly Phrases Handwriting Workbook*. May your students or children improve their handwriting skills and enjoy reading and writing these wacky sentences. The main topic of this volume is the phrase structural analysis of noun phrases and sentences. This analysis is based on recent ideas within the Government and Binding framework and makes crucial use of such modules as Theta

assignment, Binding Theory, Case assignment, as well as different definitions of the notion Barrier. The ten papers deal with certain aspects of English and German noun phrases. *First and Foremost: A Grammar Workbook* offers students practical and straightforward lessons in the basics of English grammar. Beginning with a helpful primer on commonly confused (and thus misused) words, the book's following chapters help students recognize the building blocks of sentences: prepositions, subjects, and verbs. The next sections focus on verb forms and tenses and subject-verb agreement, with a separate chapter devoted to the common problem of sentence fragments. Finally, students learn about compound and complex sentences, as well as the importance of avoiding run-on sentences and comma splices. An appendix provides useful information on punctuation and capitalization. Written in an easy-to-read style, the book assumes a facility with spoken English and frequently reminds students how much they actually already know about grammar. Exercises at the end of each chapter give students the chance to apply that chapter's lessons while reading about subjects as diverse as Mount Rushmore and comedy clubs. By the end of the workbook, students will be diagramming sentences with ease and confidence. The bestselling workbook and grammar guide, revised and updated! Tookie, who has landed a job selling books after years of incarceration that she survived by reading "with murderous attention," must solve the mystery of this haunting while at the same time trying to understand all that occurs in Minneapolis during a year of grief, astonishment, isolation, and furious reckoning. Excerpt from *Sentences and Thinking: A Practice Book in Sentence Making Sentences and Thinking* is a textbook for the first term of Freshman English. Although it could be used as a review of fundamentals at the end of the high school course, it is designed primarily for the college freshman, who can scarcely be said to have mastered fundamentals in composition, but who nevertheless tends to regard himself as sufficiently acquainted with unity, coherence, and emphasis. It is true that the large rhetorics are also designed for the college freshman; but too often they are obsessed with the sacred need of comprehensiveness, or adhere to the language and modes of thought of the old mechanical rhetoric. The authors of this little book, instead of seeking comprehensiveness, have sought absolute essentials; instead of following tradition blindly, have worked out a new

approach to Freshman rhetoric the substance being old, of course, but the mode of presentation, it is hoped, fresh and attractive because it is philosophical in a simple way. When the freshman comes to college, he is prepared to exchange his excellent high school conviction that authority is the soundest basis of belief for the equally excellent college conviction that blind faith is the one unpardonable sin and independent inquiry into the nature of things the prerequisite to all progress. We have asked the freshman, not to master rules, but to think out the reasons behind the rules in terms of the psychology of the human mind. The child of the playfully perverse marriage of a 19th century grammar school book and a contemporary computer technology, *Sentences* is a surprising lyrical romp. The noted literary scholar and poet Charles O. Hartman discovered a book titled *Sentences for Analysis and Parsing*, which was used at the Thayer Street Grammar School in Providence, RI. Hartman took this somewhat didactic text and ran it through the TRAVESTY computer program developed by Hugh Kenner and Joseph O'Rourke. Working with Kenner, Hartman then ran the result through his own DIATEST program, based on the "diastic" writings of poet Jackson Mac Low. The result is a wonderfully eccentric poetry that resembles something between Gertrude Stein and Surrealist automatic writing. An inspired collaboration between technology and human literacy, *Sentences* is an innovative delight from beginning to end. This book deals with common English words that have different meanings according to the context of the sentence. A word may have a certain

meaning in a certain sentence, then the same word has a different meaning in another situational sentence. Let me give you an example sentence taken from the book, the word Love, for example, has different meanings as shown in the following sentences: The children love their parents very much- The score now is thirty-love. Love in the first sentence means to like somebody or something very much, in the second sentence love is related to tennis sport and it means zero or null and not scoring any point in the game. I believe that this book is a good chance to learn some of the English words and their different meanings in the sn Unlike traditional grammar books that emphasize sentence analysis, this worktext asks students to imitate the sentence styles of professional writers, making the sentence composing process enjoyable and challenging. Seminar paper from the year 2009 in the subject English Language and Literature Studies - Linguistics, grade: 1, Martin Luther University (Institut für Anglistik und Amerikanistik), course: Hauptseminar 'Semantics', language: English, abstract: According to Galileo Galilei "all truths are easy to understand once they are discovered; the point is to discover them." Proving the truth values of sentences has been of peculiar interest for thousands of years and philosophers as well as mathematicians worldwide have tried to grasp this enormously complex matter. The intricacy of truth even begins with the definition of the object. Even Alfred Tarski, a Polish-American mathematician and one of the greatest logicians of the twentieth century, stated that the main problem is a satisfactory definition of truth. Obviously, discovering the truth of statements is a rather difficult task to undertake. Howsoever, in this paper we illustrate various semantic relations and theories as well as logical tools which help to establish the truth. Essay from the year 2018 in the subject Didactics - English - Grammar, Style, Working Technique, grade: 1,7, University of Hildesheim, language: English, abstract: "Once upon a time" there were only 100 languages in the world. Nowadays there are around 5,000 to 10,000 languages (Kracht 2011: 4). Every language has five levels of analysis: morphology, phonology, phonetics, semantics and syntax. Both the semantic and the morphology are closely related to the syntax.

*While the morphology deals with the structure within words, the semantic deals with the meaning of sentences and the syntax with the grammatical structure of sentences (Brown & Miller 1980: 12). Each language has its own unique structure. However, there are also differences within a language. The structure not only changed historically but also when it comes to the target groups. To make these differences clear, this essay will focus on the syntactic structure of children vs. adult fairy tales. "If your child understands the concepts of nouns and verbs, and is beginning to build simple sentences, this book will build on that foundation. Use this book to introduce your child to more advanced sentence concepts while solidifying his or her understanding of sentence structure."--Cover*

Although I actually get paid to write, I have always felt that my underlying grammatical strength was missing. I love the fact that this material is a confidence-boosting exercise as well as an educational one. I would definitely recommend my friends use this method. - Carol, Grammar Lover To be honest with you, the only way I can stomach studying grammar is through sentence diagramming. This witty primer will help." —The New York Times Book Review An exploration of how the most ordinary words can be turned into verbal constellations of extraordinary grace through the art of building sentences The sentence is the common ground where every writer walks. A good sentence can be written (and read) by anyone if we simply give it the gift of our time, and it is as close as most of us will get to making something truly beautiful. Using minimal technical terms and sources ranging from the Bible and Shakespeare to George Orwell and Maggie Nelson, as well as scientific studies of what can best fire the reader's mind, author Joe Moran shows how we can all write in a way that is clear, compelling and alive. Whether dealing with finding the ideal word, building a sentence, or constructing a paragraph, *First You Write a Sentence* informs by light example: much richer than a style guide, it can be read not only for instruction but for pleasure and delight. And along the way, it shows how good writing can help us notice the world, make ourselves known to others, and live more meaningful lives. It's an elegant gem in praise of the English sentence. "Introduces the four basic types of sentences -- declarative, exclamatory, imperative, interrogative -- through the telling of an original story"-- An indispensable and distinctive book that will help anyone who

wants to write, write better, or have a clearer understanding of what it means for them to be writing, from widely admired writer and teacher Verlyn Klinkenborg. Klinkenborg believes that most of our received wisdom about how writing works is not only wrong but an obstacle to our ability to write. In *Several Short Sentences About Writing*, he sets out to help us unlearn that “wisdom”—about genius, about creativity, about writer’s block, topic sentences, and outline—and understand that writing is just as much about thinking, noticing, and learning what it means to be involved in the act of writing. There is no gospel, no orthodoxy, no dogma in this book. Instead it is a gathering of starting points in a journey toward lively, lucid, satisfying self-expression. What are the psychological processes involved in comprehending sentences? How do we process the structure of sentences and how do we understand their meaning? Do children, bilinguals and people with language impairments process sentences in the same way as healthy monolingual adults? These are just some of the many questions that sentence processing researchers have tried to answer by conducting ever more sophisticated experiments, making this one of the most productive and exciting areas in experimental language research in recent years. This book is the first to provide a comprehensive, state-of-the-art overview of this important field. It contains 10 chapters written by world-leading experts, which discuss influential theories of sentence processing and important experimental evidence, with a focus on recent developments in the area. The chapters also analyse research that has investigated how people process the structure and meaning of sentences, and how sentences are understood within their context. This comprehensive and authoritative work will appeal to students and researchers in the field of sentence processing, as well anyone with an interest in psychology and linguistics. Based on the bestselling series from *The Great Courses*, *Building Great Sentences* celebrates the sheer joy of language—and will forever change the way you read and write. Great writing begins with the sentence. Whether it’s two words (“Jesus wept.”) or William Faulkner’s 1,287-word sentence in *Absalom! Absalom!*, sentences have the power to captivate, entertain, motivate,

educate, and, most importantly, delight. Yet, the sentence-oriented approach to writing is too often overlooked in favor of bland economy. *Building Great Sentences* teaches you to write better sentences by luxuriating in the pleasures of language. Award-winning Professor Brooks Landon draws on examples from masters of long, elegant sentences—including Don DeLillo, Virginia Woolf, Joan Didion, and Samuel Johnson—to reveal the mechanics of how language works on thoughts and emotions, providing the tools to write powerful, more effective sentences.

What are “Imperative Sentences”? The word “imperative” is derived from the term “emperor”. Imperative sentences are used to give commands (orders). Imperative sentences are also used to give instruction/advice/suggestion/warning/invitation/appeal. Imperative sentences are also used to make a request. You should use ‘please’ (or another polite word) in the beginning or at the end of the sentence to make a request. An imperative sentence begins with the base (first) form of a verb which is also called a verb word. In an imperative sentence, the subject - ‘you’ - is understood. However, for the first and

third-person imperative, the imperative sentence begins with 'let'. You can end an imperative sentence with the period (.) or exclamation (!). Exclamation is used to show direct and firm command. 'Imperative' is one of the three moods of an English verb (indicative, imperative and subjunctive). **EXAMPLES OF IMPERATIVE SENTENCES:** (A). **DIRECT ORDER** Attend the meeting. Discharge your duty. Enforce the law. Quash the previous order. Return to work. Vacate this place. (B). **INSTRUCTION** Climb the stair. Fill out this form. Go on foot. Hang a painting. Light a candle. Note this down. Open up the cage. Push a trolley. Spell it out. Tie your shoelaces. Unpack the luggage. (C). **INFORMAL ADVICE** Book a hotel room. Improve your appearance. Mend your ways. Walk elegantly. (D). **SUGGESTION** Follow your dreams Keep up your English. (E). **WARNING** Don't Jump that gate! Watch out for a traffic signal! The '1001 Sample Sentences with errors' module contains various kinds of incorrect sentences. The sentences were retrieved from selected students' essays. The sample sentences were then analysed, edited and corrected. The module comes in two volumes, Module 1 and Module 2. In constructing the sample answers, the author tries to make the least possible changes to the sample sentences so that the original meaning of the sentences are maintained. By doing so, it is hoped that students will learn how to do simple edits to their sentences and produce grammatically correct sentences. Therefore, this module aims to demonstrate how simple editing can help students write sentences correctly and save students from losing marks in their essay writing exercises or examination. On the other hand, the author also tries to model how sample sentences can be rephrased into sentences that express meaning more clearly. Thus, students are also encouraged to rephrase the sample sentences and express the meaning of the sentences in different ways. Students are also free to rephrase or simplify certain sample answers to keep it 'short and sweet'. In performing the tasks, students can either retain or change the original meaning of the sample sentences or sample answers. So it really depends on students' creativity hence giving them greater chance to do a lot of practice on rephrasing/reconstructing sentences. Therefore, this module provides ample opportunities for students to*

*perform a lot of rephrasing exercises which in the process will enhance their writing skills. In short, this module tries to assist students in two ways: -Encourage students to rephrase/reconstruct sample sentences hence giving them a lot of practice to write various kinds of sentences. (As in “A”) -Guide students to do the corrections by using/choosing the sample answers from the options given. (As in “B”) So please do not waste or discard your essay scripts. Go through them all over again and try to edit your own sentences. By doing so, gradually you will be able to improve the quality of your writing significantly. Good sentences convey ideas precisely and concisely. This module will guide you on how to correct your sentences. It can be used in class or as a ‘self-learning’ module and suitable for Forms 3, 4 and 5 students.*
