[You Are Here](#) Jan 15 2022 INSTANT NEW YORK TIMES BESTSELLER A new book from #1 New York Times bestselling author Jenny Lawson, destined to be a classic—part therapy, part best friend, part humor, part coloring book. When Jenny Lawson is anxious, one of the things she does is to draw.

Elaborate doodles, beautiful illustrations, often with captions that she posts online. At her signings, fans show up with printouts of these drawings for Jenny to autograph. And inevitably they ask her when will she publish a whole book of them. That moment has arrived. You Are Here is something only Jenny could create. A combination of inspiration, therapy, coloring, humor, and advice, this book is filled with Jenny's amazingly intricate illustrations, all on perforated pages that can be easily torn out, hung up, and shared. Drawing on the tenets of art therapy—which you can do while hiding in the pillow fort under your bed—You Are Here is ready to be made entirely your own. Some of the material is dark, some is light; some is silly and profane and irreverent. Gathered together, this is life, happening right

now, all around, in its messy glory, as only Jenny Lawson could show us.

Stumbling on Happiness Feb 22 2020 A smart and funny book by a prominent Harvard psychologist, which uses groundbreaking research and (often hilarious) anecdotes to show us why we're so lousy at predicting what will make us happy – and what we can do about it. Most of us spend our lives steering ourselves toward the best of all possible futures, only to find that tomorrow rarely turns out as we had expected. Why? As Harvard psychologist Daniel Gilbert explains, when people try to imagine what the future will hold, they make some basic and consistent mistakes. Just as memory plays tricks on us when we try to look backward in time, so does imagination play tricks when we try to look forward. Using cutting-edge research, much of it original, Gilbert shakes, cajoles, persuades, tricks and jokes us into accepting the fact that happiness is not really what or where we thought it was. Among the unexpected questions he poses: Why are conjoined twins no less happy than the general population? When you go out to eat, is it better to order your favourite dish every time, or to try something new? If Ingrid Bergman hadn't gotten on the plane at the end of Casablanca, would she and Bogey have been better off? Smart, witty, accessible and laugh-out-loud funny, Stumbling on Happiness brilliantly describes all that science has to tell us about the uniquely human ability to envision the future, and how likely we are to enjoy it when we get there.
